Summary

Backend Engineer with 2+ years of experience building scalable microservices using Java and Spring Boot. Strong in system design, API optimization, and CI/CD. Experienced in developing enterprise-grade financial platforms with high performance and reliability.

Experience

Associate Engineer

Jan 2024 – Present

Virtusa Consulting Services

- Built scalable microservices for a Trade Finance platform (greenfield project)
- Developed REST APIs reducing latency by 30%
- Optimized database queries improving response time by 35%
- Ensured 99.9% uptime with robust error handling and monitoring
- Achieved 85%+ unit test coverage using JUnit and Mockito
- Developed backend services for 5+ enterprise applications
- Improved performance by 25% via API and code optimization
- Automated CI/CD pipelines reducing release cycles by 20%

Software Development Intern

May 2023 – Sept 2023

Virtusa Consulting Services

- Built REST APIs handling 2000+ daily transactions
- Optimized queries and improved system efficiency
- Increased reliability through unit testing

Projects

PII Data Masking Platform

Built a secure system for PII detection, masking, and encryption using Python and FastAPI.

Movie Rating Microservice

Designed a scalable microservice using Spring Boot with external API integration.

Skills

Languages: Java, Python, SQL, JavaScript

Frameworks: Spring Boot, REST APIs, Microservices

Databases: PostgreSQL, Oracle, MySQL, MS SQL, MongoDB

Tools: Docker, Jenkins, Git, Maven, Swagger, Postman

Concepts: Data Structures, OOP, System Design, CI/CD, Agile

Testing: JUnit, Mockito

Certifications

Oracle Certified Associate (Java SE 8)

Pega Certified Business Architect

Education

B.Tech in Computer Science

2019 – 2023

Netaji Subhash Engineering College

CGPA: 9.18/10
